

The Jewish Educational Center gives more than \$4,000,000 in financial aid to families who desire an education that combines excellent general studies with the religious traditions they value, but are unable to fully afford. More than half of our 600 families receive some amount of financial aid.

Over the 78 years the Jewish Educational Center has been educating children, we have provided an excellent college preparatory education to thousands of young people. We count among our alumni two Rhodes Scholars, two former United States Ambassadors, a MacArthur Genius Awardee, and hundreds of doctors, lawyers, professors, Rabbis, and other professionals who make us proud.

- \$18 per pay period for 26 periods would supply 26 Hand Sanitizer gel refills for our students and faculty.
- \$25 per pay period for 26 periods would supply two students with Chromebooks to use in the school building or at home in the case of distance learning.
- \$40 per pay period for 26 periods would supply a class with the equipment to provide blended learning for students at home while participating fully in the classroom.
