

The day started off like any other day for Robert. He was a young adult working at a fast food restaurant. After his shift he was critically injured in a traffic accident on his way home. During his recovery, he endured numerous surgeries and weeks of occupational and physical therapy. It was a long road, but Robert's determination never wavered. Today he has limited use of his left arm, but his outlook on life is inspiring.

Each day Robert navigates the public transportation system to arrive at work. He is a proud member of the janitorial team and aspires to find employment in the competitive workforce. Our dedicated staff continues to work side-by-side with Robert to help him achieve his goal.

Robert lives by the team concept whether he is cheering on his favorite sports team or as a member of the Abilities Solutions team. He is our champion!
